

**Library Links for Education:
A Digital Partnership**
*San Mateo County Office of Education
Peninsula Library System*

Library Links Database Access Card

**New and easy access to public library databases
for all San Mateo County teachers and students**

Apply for a Library Links for Education public library “Database Access Card” and you and your students will be able to quickly and easily connect to the public library’s select databases through a San Mateo County Office of Education link.

Library Links for Education allows access to public library electronic resources that ...

- connect to the most popular public library resources for students
- are easily available from school libraries and classrooms
- allow students to focus research on authoritative resources
- build student familiarity with public library databases for further research from home.

Watch too for the accompanying public library card campaign targeted for 4th, 6th and 9th grade students. With a public library card students are able to check-out and reserve a wide range of free materials from the 30 public libraries and 3 community college libraries in San Mateo County, 24 hours a day, from school, home or the library. A public library card also allows access to library computers for word processing and electronic research.

Apply for a Public Library Database Access Card today!
